

**FlexLok**

The innovative FlexLok system is the ideal alternative to traditional adhesive installation methods. The odorless dry technique virtually eliminates harmful VOCs and can be used on all underlays, for all Mohawk Group Carpet Tiles. Rely on FlexLok for a fast, easy installation of flexible, floating floors, without any glue,

**Installing planks**

**Ashlar**

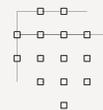

Lay the first row of planks and put FlexLok pads at each joint, adhesive side up. Install the remaining carpet tiles, placing FlexLok tabs as illustrated in the image.

**Herringbone pattern**

For herringbone designs, put FlexLok pads on each corner, adhesive side up.

**Installing tiles**

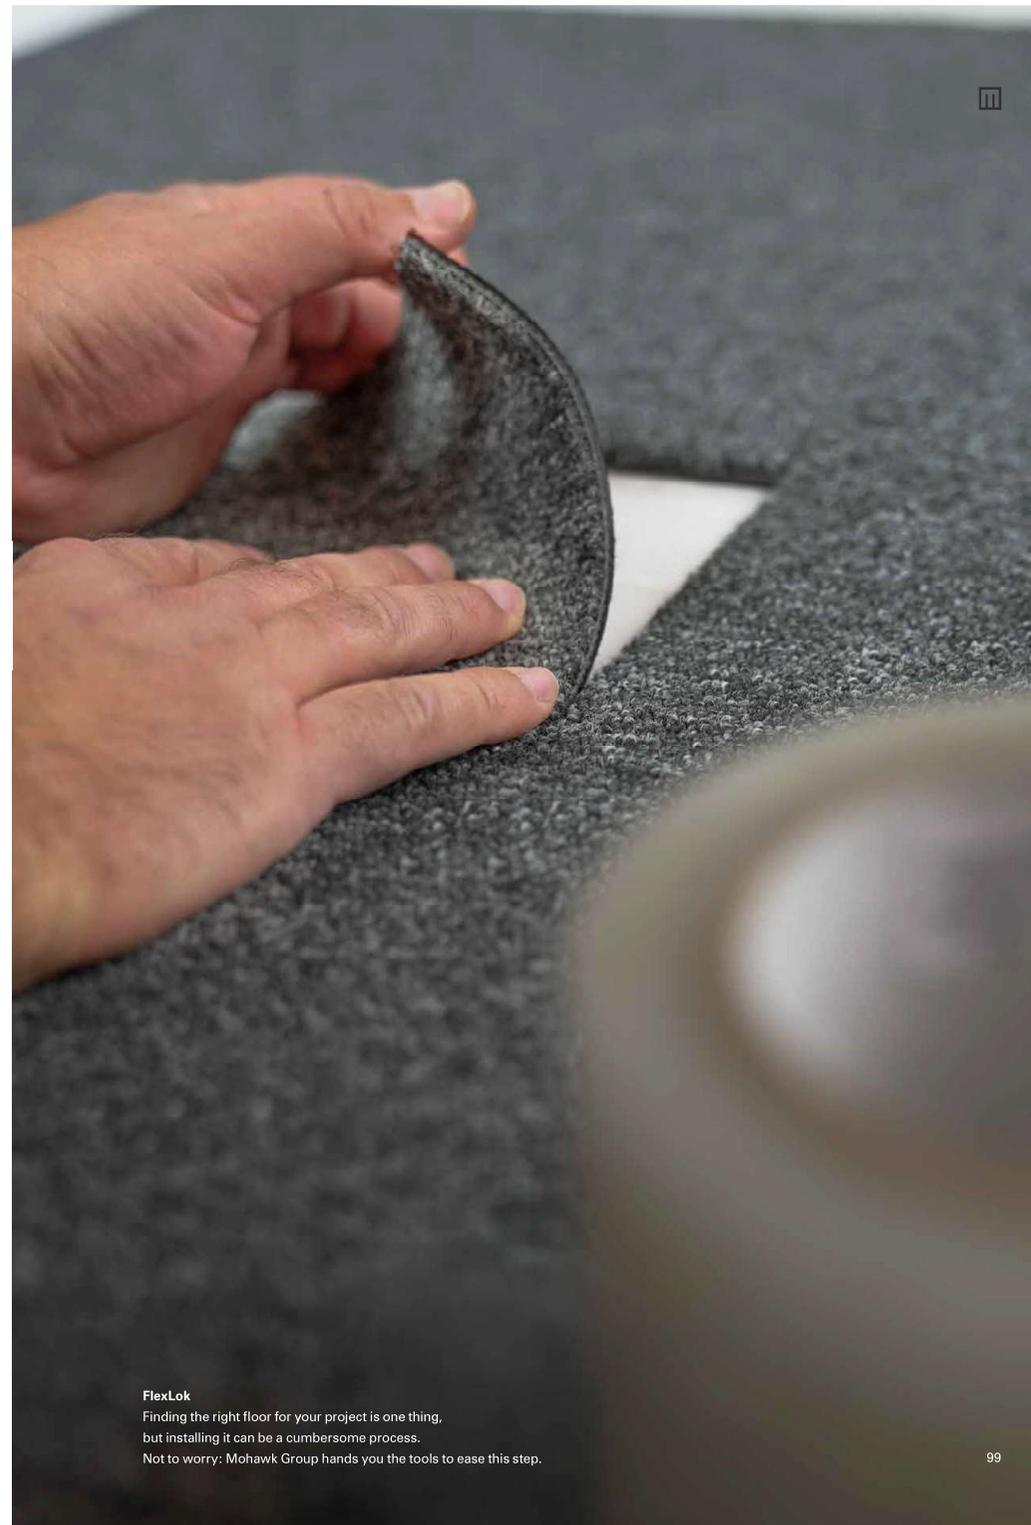

**Quarter turn, monolithic, and multi-directional**

Put FlexLok pads at each corner of the tiles, adhesive side up.

**Brick and Ashlar**

Lay the first row of planks and put FlexLok pads at each joint, adhesive side up. Install the remaining carpet tiles, placing FlexLok tabs as illustrated in the image.

**FlexLok**

Finding the right floor for your project is one thing, but installing it can be a cumbersome process. Not to worry: Mohawk Group hands you the tools to ease this step.
